| 1. Record Nr. | UNINA9910974596603321 |
| Autore | Clemson David |
| Titolo | Mathematics in the early years / / David Clemson and Wendy Clemson |
| Pubbl/distr/stampa | London ; ; New York, : Routledge, 1994 |
| ISBN | 1-134-86453-1 1-299-47653-8 1-134-86454-X 1-280-56269-2 9786610562695 0-203-13367-6 |
| Edizione | [1st ed.] |
| Descrizione fisica | 1 online resource (238 p.) |
| Collana | Teaching and learning in the first three years of school |
| Altri autori (Persone) | ClemsonWendy |
| Disciplina | 372.7/049 |
| Soggetti | Mathematics - Study and teaching (Primary) |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references (p. [213]-218) and indexes. |
| Nota di contenuto | Cover; Mathematics in the early years; Copyright; Contents; Illustrations; Editor's preface; Foreword; Acknowledgements; Part I. A context for mathematics; 1. How children learn; 2. Home and school; Part II. The subject mathematics; 3. What mathematics is; 4. The mathematics curriculum; 5. Mathematics and language; Part III. Managing mathematics; 6. School plans; 7. Mathematics in the classroom; Part IV. Mathematics in action; 8. Classroom episodes; Part V. Assessment, record keeping and evaluation; 9. Monitoring progress; 10. Modifying practice; Part VI. In-service education 11. Workshop ideasBibliography; Author index; Subject index |
| Sommario/riassunto | The Clemsons' clear and readable book takes the reader from debates about how children learn and what children know and can do when they start school; through to a discussion of how mathematics can be managed, assessed and evaluated in the school and classroom. Linking these two parts of the book is a section on the subject of mathematics itself, from which the non-specialist reader can gain a view of what mathematics is, what needs to be thought about in planning and offering a curriculum and the special dilemmas faced in teaching and learning mathematics as a subject. A bank of case studies |
