

1. Record Nr.	UNINA9910974646703321
Autore	Akhaddar Ali
Titolo	Neurosurgical Infectious Disease : Surgical and Nonsurgical Management / / by: Hall, Walter A., Kim, Peter D.
Pubbl/distr/stampa	New York : , : Thieme, , [2014] ©2014
ISBN	9781604068214 1604068213
Edizione	[1st ed.]
Descrizione fisica	1 online resource : illustrations
Disciplina	616.8/3
Soggetti	Central nervous system - Diseases - Diagnosis Central nervous system - Diseases - Treatment Central nervous system - Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Immunology of the CNS / Pragati Nigam and Maciej Lesniak -- Microbiological diagnosis of CNS / Yuriko Fukuta and Karin E. Byers -- Antibiotics and development of resistance / Peter D. Kim and Walter A. Hall -- Radiology of infections of the CNS / Kunal M. Patel and Charles L. Truwit -- Viral infections of the CNS -- Joseph B. Domachowske and Manika Suryadevara -- Fungal infections of the CNS / Walter A. Hall and Peter D. Kim -- Parasitic infections of the CNS / Ali Akhaddar and Mohamed Boucetta -- Bacterial brain abscess / Peter D. Kim and Walter A. Hall -- Meningeal infections / Manika Suryadevara and Joseph B. Domachowske -- Epidural and subdural infections / Sandi K. Lam and Peter C. Warnke -- Intracranial vascular infections / Hoon Choi, Walter A. Hall, and Eric M. Deshaies -- Vertebral column infections / Kyle I. Swanson and Daniel K. Resnick -- Spinal canal infections / Ian E. McCutcheon -- Neurosurgical antibiotic prophylaxis / DaraspreetKainth, Dino Terzic, and Stephen J. Haines -- Postoperative intracranial infections / Arya Nabavi, Friederike Knerlich-Lukoschus, and Andreas M. Stark -- Implanted devices and CNS infection / Ramesh Grandhi, Gillian Harrison, and Elizabeth C. Tyler-Kabara -- Pediatric CNS infections / Ian Mutchnick and Thomas Moriarty -- Immune

compromise and CNS infections / Ouzi Nissim ... [et al.] -- Systemic infections in neurocritical care / Michael F. Regner ... [et al.].

Sommario/riassunto

Neurosurgical infectious disease: Surgical and nonsurgical management is a comprehensive guide that gives surgeons the core knowledge they need to diagnose, treat, and prevent infectious diseases of the central nervous system.
