Sommario/riassunto

A remarkable feature of the collapse of the British Empire is that the British departed from almost every single one of their colonial territories invariably leaving behind a messy situation and an agenda of serious problems that in most cases still haunt those territories to this day. One such territory is the Southern British Cameroons. There, the British Government took the official view that the territory and its people were expendable. It opposed, for selfish economic reasons, sovereign statehood for the territory, in clear violation of the UN Charter and the norm of self-determination.
