Sommario/riassunto	""Carl Jung, Darwin of the Mind"" is a review and an explanation of Jung's thought set in an evolutionary context. Jung explored the human psyche throughout his long life. His writings, of astonishing scope and depth, elaborate on imagery that can be found in rituals, myths and fables worldwide as well as in the dreams, visions and fantasies of his patients and himself. Jung pursued common threads of meaning to the point of becoming deeply versed in the esoterica of Eastern mysticism, Gnosticism, and alchemy. Taken collectively, Jung's works develop a coherent theory about how the psyche is co
