Reid -- Maps, matricials, and material remains : an archaeological GIS of late-eighteenth-century historic sites on St. John, Danish West Indies / Douglas V. Armstrong ... [et al.] -- Understanding Nevis : GPS and archaeological field survey in a postcolonial landscape / Roger H. Leech -- The use of imagery to locate Taino sites in Jamaica in a GIS environment / Parris Lyew-Ayee and Ivor Conolley -- Geophysics and the search for Raleigh's outpost on Trinidad / Eric Klingelhofer -- Geophysics and volcanic islands : resistivity and gradiometry on St. Eustatius / R. Grant Gilmore III -- Postscript: Archaeology and geoinformatics from a Caribbeanist perspective / Basil A. Reid.

Sommario/riassunto

Addressing the use of geoinformatics in Caribbean archaeology, this volume is based on case studies drawn from specific island territories, namely, Barbados, St. John, Puerto Rico, Jamaica, Nevis, St. Eustatius, and Trinidad and Tobago, as well as inter-island interaction and landscape conceptualization in the Caribbean region. Geoinformatics is especially critical within the Caribbean where site destruction is intense due to storm surges, hurricanes, ocean and riverine erosion, urbanization, industrialization, and agriculture, as well as commercial development along the very waterfronts
