Integration: The Case of Turkey

Sommario/riassunto

Hauptbeschreibung Divided States provides a nuanced understanding
of some of the most important and impacting issues in EU-Russia
relations, and is essential reading for anyone interested in the complex
mechanisms that drive political and economic activity in Europe and the
European periphery. The original and thought-provoking chapters, by
experts in their fields, apply cutting-edge theoretical constructs such
as hybridity theory, a hierarchical understanding of monetary relations,
and an examination of asymmetric political and economic partnerships,
all of which address key questions and cha
