| Sommario/riassunto | This introduction to American literature and culture from 1900 to 1960 is organized around four major ideas about America: that is it "big", "new", "rich", and "free". * Illustrates the artistic and social climate in the USA during this period. * Juxtaposes discussion of history, popular culture, literature and other art forms in ways that foster discussion, questioning, and continued study. * An appendix lists relevant primary |

and secondary works, including websites. * An ideal supplement to primary texts taught in American literature courses.
