Sommario/riassunto	This book aims to enhance new graduate nurses' skills and prepare them for the demands and challenges of their profession. It addresses not only the technical aspects of nursing practice but also emphasizes clinical skills such as critical thinking, effective communication, cultural competence skills, mentorship and support, and technology integration. It can be used by new nurses, nurse educators, clinical instructors, mentors, in both private and public hospitals during the onboarding or orientation programs. This book goes beyond the theoretical knowledge taught in nursing programs and provides practical strategies and insights to help new nurses thrive. Enriched with Flashcards in each chapter, this book is a unique educational tool, which recognizes the importance of bridging the gap between theory and practice and offers practical guidance to help new nurses navigate this transition successfully. It also highlights the importance of continuing education and transition strategies such as mentorship

programs to support ongoing growth and development as a nurse. Finally, the book concentrates on the importance of cultural competence in nursing practice and provides strategies for developing cultural awareness, sensitivity, and competence in new graduate nurses.
