Livello bibliografico	Monografia
Sommario/riassunto	"The six-volume sub-series Historiography and Identity unites a wide variety of case studies from Antiquity to the Late Middle Ages, from the Latin West to the emerging polities in Northern and Eastern Europe, and also incorporates a Eurasian perspective which includes the Islamic World and China. The series aims to develop a critical methodology that harnesses the potential of identity studies to enhance our understanding of the construction and impact of historiography."-- Publisher's website.
