Conclusion - Charting a Course for the Future of Internationalization and Digital Transformation in Higher Education.

| Sommario/riassunto | "This book offers a palette of research on the impact of the digital transformation on higher education in Morocco. From the role of teachers to the effects of artificial intelligence, and from the opportunities of e-learning to the use of generative AI. The contributions by scholars from a selection of Moroccan universities, provide a nice overview of theoretical perspectives, regional challenges, trends and best practices." —Wieger Bakker, Full Professor of Society Oriented Higher Education, Utrecht University "Aicha Adoui's new book provides a crucial roadmap for scholars, administrators, and practitioners in higher education, with significant implications in times of uncertainty. This volume offers expertise of Moroccan scholars, offering an in-depth analysis of the challenges and opportunities for advancing social change and shaping policy agendas. Adoui's editorial leadership and other scholars' contributions emphasize the role of intellectuals in engaging with the public." —Benjamin H. Nam, Associate Professor, School of Education, Senior Researcher, Center for Comparative Study of Global Education, Shanghai International Studies University "In an era of globalization and rapid technological advancements, higher education institutions are facing challenges of internationalization and digital transformation. This book edited by Aicha Adoui, provides a comprehensive exploration of these intersecting trends, offering invaluable insights for educators, |

policymakers, and researchers. I believe that this volume is groundbreaking. I believe that this work is an essential resource to understand the future of higher education." —Houssine El Rhilani UNAIDS Country Director, Morocco This edited volume provides a comprehensive examination of the intersection between internationalization of higher education and digital transformation, with a focus on insights from Morocco. Through a series of chapters authored by experts in the field, the book covers a wide range of topics, including critical thinking in intercultural education, the transformative impact of internationalization on educators and students, technological integration, challenges, opportunities, policy perspectives, and future directions. Aicha Adoui is a researcher in the field of international education. She is an internationalization specialist, who studies the intersection of intercultural communication, soft power, diplomacy, and international higher education. Her research interests include education and social justice, technology, intelligent systems, and international relations.
