

1. Record Nr.	UNINA9910980484203321
Autore	Meyer Ulrich
Titolo	Fundamentals of Craniofacial Malformations : Vol. 3, Surgical Atlas // edited by Ulrich Meyer
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2024
ISBN	9783031517730 3031517733
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (473 pages)
Altri autori (Persone)	HopperRichard A
Disciplina	617.52059
Soggetti	Mouth - Surgery Surgery, Plastic Surgery Dentistry Oral and Maxillofacial Surgery Plastic Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction. I Surgical principles: 61. Surgical approaches to the craniofacial skeleton -- 2. Bone healing principles for the craniofacial skeleton -- 3. Craniofacial Soft tissue healing -- 4. Craniofacial Tissue Regeneration through distraction osteogenesis -- 5. Virtual planning of craniofacial surgery and CAD/CAM based reconstruction -- 6. Anesthesiological aspects of craniofacial surgery -- 7. Postoperative care for craniofacial surgery patients. II Craniosynostoses: 8. Frontoorbital advancement -- 9. Midfacial Advancement -- 10. Hypertelorism operation -- 11. Craniofacial Augmentation Procedures -- 12. Hand and foot surgery in apert patients -- 13. Skull surgery of non-syndromal Craniosynostoses. III Branchio-oculo facial syndromes: 14. Surgery of the internal ear -- 15. Surgery of the external ear -- 16. Surgery of the mandible.IV Rare craniofacial syndromes: 17. Overview of Rare craniofacial syndromes -- 18. Surgical principles for Rare craniofacial syndromes -- 19. Cromosomal aberrations -- 20. Conjoined twins.V Craniofacial Soft tissue malformations: 21. Classification of craniofacial soft tissue malformations -- 22. Surgery

of craniofacial vascular malformations -- 23. Craniofacial skin surgery. VI Orofacial clefts: 24. Surgery of the lip and jaw for cleft patients -- 25. Surgery of the palate/velopharyngeal for cleft patients -- 26. Cleft Osteoplasty -- 27. Corrective surgery of the nose for cleft patients -- 28. Corrective surgery of the jaws for cleft patients. VII Dysgnathias: 29. Surgical approaches to the maxilla-mandibular complex -- 30. Orthognathic surgery of the midface/facial complex -- 31. Orthognathic surgery of the maxilla -- 32. Orthognathic surgery of the mandible -- 33. Orthognathic surgery of the temporomandibular joint -- 34. dento-alveolar surgery/segmental techniques for dysgnathic patients -- 35. Distraction osteogenesis for dysgnathic patients.

## Sommario/riassunto

This is the final volume in an interdisciplinary three-book series covering the full range of biological, clinical, and surgical aspects in the evaluation, diagnosis, and treatment of patients with craniofacial malformations. In this volume, all key operations from early infancy to adulthood employed in the treatment of different malformations – craniosynostoses, orofacial-clefts, branchio-oculo-facial syndromes, dysgnathia, rare syndromes, soft tissue malformations – are described in detail. All operations are depicted in a step by step manner through of a wealth of high-quality intraoperative photos and related illustrations. In addition, operations are discussed in light of the recent state of various other surgical techniques. The volume will meet the needs of all surgeons and surgical trainees who deal with these malformations. The remaining two volumes focus on the biological basis of disease, psychological aspects, and diagnostic issues and on treatment principles.
