

1. Record Nr.	UNINA9910464293303321
Autore	Griggs Gary B
Titolo	Living with the changing California Coast [[electronic resource] /] / Gary Griggs, Kiki Patsch, and Lauret Savoy ; with contributions by Reinhard Flick ... [et al.]
Pubbl/distr/stampa	Berkeley, Calif., : University of California Press, c2005
ISBN	1-282-77181-7 9786612771811 0-520-93867-4
Descrizione fisica	1 online resource (553 p.)
Altri autori (Persone)	PatschKiki <1977-> SavoyLauret E FlickReinhard
Disciplina	551.45/7/09794
Soggetti	Shore protection - California Coasts - California Coastal zone management - California Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Rev. ed. of: Living with the California coast / edited by Gary Griggs and Lauret Savoy. 1985.
Nota di bibliografia	Includes bibliographical references (p. 515-524) and index.
Nota di contenuto	Introduction : a perspective on the coast of California ; The evolution of the California coast ; Weather, climate change, sea level and the coastline ; Understanding the shoreline ; The erosion of the coastline ; Building or buying on the coast ; Responding to coastal hazards / Gary Griggs, Kiki Patsch, Lauret Savoy -- California's coastal hazards : theory and practice / Charles Lester -- The northern California coast: The Oregon border to Cape Mendocino / Lauret Savoy, Gary Griggs and Derek Rust. Point Delgada to Point Arena / Dorothy Merritts, Lauret Savoy, Gary Griggs and Robert Walker. Point Arena to San Francisco / Lauret Savoy, Dorothy Merritts, Karen Grove and Robert Walker. The San Francisco coastline / Gary Griggs, Kim Fulton and Lauret Savoy. San Francisco to Ano Nuevo / Jerry Weber, Gary Griggs, Ken LaJoie and Scott Mathieson. Ano Nuevo to the Monterey Peninsula / Gary Griggs and Kiki Patsch. The Monterey Peninsula to Morro Bay / Cheryl Hapke. Morro Bay

to Point Conception / Antony Orme. Point Conception to Rincon Point / Robert Norris and Kiki Patsch. Rincon Point to Santa Monica / Antony Orme -- The coast of southern California: Santa Monica to Dana Point / Douglas Sherman and Bernard Pipkin. Dana Point to the international border / Reinhard Flick -- App. A. References -- App. B. Geologic time line.

Sommario/riassunto

Crowded into the beautiful, narrow strip at the edge of the ocean, the large number of people who live near California's dynamic coastline often have little awareness of the hazards-waves, tides, wind, storms, rain, and runoff-that erode and impact the coast and claim property on a regular basis. This up-to-date, authoritative, and easy-to-use book, a geological profile of the California coast from Mexico to the Oregon border, describes the landforms and processes that shape the coastline and beaches, documents how erosion has affected development, and discusses the options that are available for dealing with coastal hazards and geologic instability. A completely revised and updated edition of *Living with the California Coast* (1985), this book features hundreds of new photographs and the latest data on human activity on the coast, on climate change, on rising seas levels, and on coastal erosion and protection. With its dramatic photographs and mile-by-mile maps, *Living with the Changing California Coast* will be an essential resource for those intending to buy or build along the coast, those who need specific information about various coastal regions, and those who are seeking information about how this remarkable coastline has evolved. *279 photographs portray natural coastal features and processes and illustrate many instances of what can happen to buildings on the coast *81 maps, covering the entire coast, detail types of coastal landforms, coastline erosion rates, locations of seawalls or armor, and other specific areas of interest *Offers specific advice for homebuyers, residents, and developers on which areas to avoid, on what safety measures should be taken, and on what danger signals should be heeded

2. Record Nr.	UNISALENTO991000644809707536
Autore	Plato
Titolo	Theaetetus; Sophist / Plato ; with an english translation by Harold North Fowler
Pubbl/distr/stampa	Cambridge, Mass. ; London : Harvard University Press, 1928 (ristampa 1996)
ISBN	0674991370
Descrizione fisica	X, 462 p. ; 17 cm.
Collana	The Loeb classical library [Autori greci] ; 123
Altri autori (Persone)	Fowler, Harold North
Lingua di pubblicazione	Inglese Greco antico
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Testo greco a fronte

3. Record Nr.	UNINA9910983032303321
Autore	Li Feifei
Titolo	Cloud Native Database : Principle and Practice // by Feifei Li, Xuan Zhou, Peng Cai, Rong Zhang, Gui Huang, XiangWen Liu
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2025
ISBN	9789819740574 9819740576
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (244 pages)
Collana	Computer Science Series
Altri autori (Persone)	ZhouXuan CaiPeng ZhangRong HuangGui LiuXiangwen
Disciplina	004.6782
Soggetti	Information retrieval Computer architecture Database management Cloud computing Data Storage Representation Database Management System Cloud Computing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. Database Development Milestones -- Chapter 2. Databases and Cloud Nativeness -- Chapter 3. Architecture of Cloud-Native Databases -- Chapter 4. Storage Engine.-Chapter 5. High-Availability Shared Storage Systems -- Chapter 6. Database Cache -- Chapter 7. Computing Engine -- Chapter 8. Integration of Cloud-Native and Distributed Architectures -- Chapter 9. Practical Application of PolarDB -- Chapter 10. PolarDB O&M.
Sommario/riassunto	This book analyzes in detail the technological evolution process of databases in the era of cloud computing and explains how traditional database technology has gradually developed to cloud-native form from multiple perspectives such as architecture design, implementation

mechanism, and system optimization. This book emphasizes the full combination of theory and practice and also analyzes the SQL optimization and execution, transaction processing, caching and indexing principles of databases implemented by MySQL, PostgreSQL and other systems, what trade-offs and compromises are made in the face of actual application requirements, how to optimize in the face of complex application scenarios, and the reasons behind making various choices. At the same time, combined with Alibaba Cloud's R&D experience in the database field, this book focuses on a series of core technical principles of modern database evolution from system to service, such as the use of cloud computing resource pooling technology and distributed technology to achieve high availability, elastic expansion, and on-demand use of databases. The book is informative, combines theoretical depth and implementation details, and openly explores the new development direction of the database, which can inspire readers to think further.
