Descrizione fisica	1 online resource (168 pages)
Disciplina	303.48254051249
Soggetti	Diplomacy International relations Technology - Sociological aspects Economic development Globalization Foreign Policy Science, Technology and Society Development Studies
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: Introduction -- Chapter 2: India-Taiwan Relations: Exploring Science and Technology Diplomacy as a Tool for Foreign Policy in the Twenty-first century -- Chapter 3: Science and Technology Diplomacy for India-Taiwan Relations in the Twenty-first century: Case Studies -- Chapter 4: Taiwan's Role in the Global 5G Technology Landscape in the Indo-Pacific Region: Adoption, Competition and Diplomacy -- Chapter 5: Conclusion: Policy Recommendations.
Sommario/riassunto	In the context of India-Taiwan relations, this book investigates the convergence of science, technology, and diplomacy (S&TD). It dives into the changing environment of digital breakthroughs and their influence on India-Taiwan bilateral collaboration. It explores existing problems, possibilities, and tactics involved in using science and technology (S&T) as major tools of diplomacy, with an emphasis on India-Taiwan

diplomatic ties. The book primarily focuses on India-Taiwan bilateral ties in the framework of science, technology, and innovation (STI). It explores how these two nations navigate diplomatic channels and collaborate on scientific and technological initiatives in the digital age, focusing on case studies involving the semiconductor industry, health governance, and the adoption, competition, and diplomacy surrounding 5G technology. It sheds light on the hurdles that must be overcome, the geopolitical influences at work, and the possibilities for mutually beneficial relationships in this quickly changing scene. The book's scope also includes policy analysis, case studies, and future projections to provide a thorough picture of India-Taiwan ties in science and technology diplomacy (S&TD). The goal is to provide a comprehensive resource for policymakers, scholars, diplomats, and anyone else interested in the dynamics of science and technology diplomacy (S&TD) between Taiwan and India in the digital era. Dr Ramnath Reghunadhan is an Assistant Professor at the Department of Social Sciences in School of Social Sciences and Languages (SSL), Vellore Institute of Technology (VIT) University, Vellore Campus, India. The areas of research and teaching include Science, Technology and Innovation (STI); International Relations; Public Policy; Administration and Governance; Cyber Politics; India-Taiwan; Digitalisation; Global Political Economy; and National Security.
