Sommario/riassunto	This book gathers contributions presented at the 7th International Conference on Concrete Repair, Rehabilitation and Retrofitting (ICCRRR), held in Cape Town, South Africa, on November 4–6, 2024. The conference aims at sharing knowledge and experience on current developments in concrete technology, durability design and service life management, condition assessment of concrete structures, and

concrete repair, rehabilitation and retrofitting. The contributions, which were selected through a rigorous international peer-review process, share exciting ideas that will spur novel research directions and foster new multidisciplinary collaborations.
