

1. Record Nr.	UNINA9910983393203321
Autore	Sehgal Naresh Kumar
Titolo	AI on the Edge with Security : Foundations and Practices / / by Naresh Kumar Sehgal, Manoj Saxena, Dhaval N. Shah
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	9783031782725 9783031782718
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (285 pages)
Altri autori (Persone)	SaxenaManoj ShahDhaval N
Disciplina	006.22
Soggetti	Embedded computer systems Cooperating objects (Computer systems) Internet of things Embedded Systems Cyber-Physical Systems Internet of Things
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Part I. Foundations -- Chapter 1. Edge Computing with AI: Introduction -- Chapter 2. Foundations of Computing at the Edge of Networks -- Chapter 3. Foundations of the Internet of Things (IoT) -- Chapter 4. Foundations of Artificial Intelligence -- Chapter 5. Foundations of Information Security -- Chapter 6. Edge Artificial Intelligence -- Part II. Practices -- Chapter 7. Security and Performance at the Edge -- Chapter 8. Intelligent Edge Computing: Design Use Cases -- Chapter 9. Role of Regulatory -- Chapter 10. Future of Edge AI.
Sommario/riassunto	This book provides readers with an overview of the next generation of Cloud computing with AI, evolving to minimize latency and address privacy/security concerns of many customers. This book will highlight the associated problems and propose new solutions for performing AI and ML at the edge of computing networks. Connects the dots between IoT, Cloud Computing and AI/ML to show the power of combining these; Readers will learn to prepare for the evolution of Cloud Computing in the context of Security, AI and the Edge; Enables design

of architectures resulting in lower electrical power usage, latency and higher security.
