1. Record Nr.   UNINA9910983484103321

   Autore   M. Thampi Sabu

   Titolo   Fifth International Conference on Computing and Network
                        Communications : Proceedings of CoCoNet 2023, Volume 1 / / edited
                        by Sabu M. Thampi, Patrick Siarry, Mohammed Atiquzzaman, Ljiljana
                        Trajkovic, Jaime Lloret Mauri

   Pubbl/distr/stampa   Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2025

   ISBN   9789819745401
                        9819745403

   Edizione   [1st ed. 2025.]

   Descrizione fisica   1 online resource (0 pages)

   Collana   Lecture Notes in Electrical Engineering, , 1876-1119 ; ; 1219

   Altri autori (Persone) SiarryPatrick
                           AtiquzzamanMohammed
                           TrajkovicLjiljana
                           Lloret MauriJaime

   Disciplina   004.6

   Soggetti   Computer networks
                        Wireless communication systems
                        Mobile communication systems
                        Internet of things
                        Computer Communication Networks
                        Computer Networks
                        Wireless and Mobile Communication
                        Internet of Things

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Sommario/riassunto   This book constitutes thoroughly refereed post-conference
                        proceedings of the 5th International Conference on Computing and
                        Network Communications, CoCoNet'23. The revised papers presented
                        are carefully reviewed and selected from several initial submissions.
                        The scope of the Symposium includes Network-on-Chip Architectures
                        and Applications, Future Internet Architecture and Protocols, Intelligent
                        Networked Systems, IoT and smart cities, Communications Systems
                        Integration and Modelling, and Wireless and Mobile Communications.

The book is directed to the researchers and scientists engaged in
various fields of network communications. .
