Livello bibliografico	Monografia
Note generali	"Toute personne a droit a la liberte d'expression" Article 10, Convention europeenne des droits de l'homme.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	L'expansion d'internet a engendré une croissance exponentielle des possibilités de s'exprimer, mais elle a aussi multiplié les dangers qui menacent la liberté d'expression. Du Printemps arabe au mouvement mondial Occupy, la liberté d'expression sur internet a une profonde incidence sur des débats décisifs pour notre avenir. Parallèlement, les États sont de plus en plus nombreux à recourir à internet pour espionner des journalistes et des citoyens journalistes, poursuivre et emprisonner des blogueurs, et exercer une censure en ligne. Cet ouvrage répond à des questions essentielles concernant la portée et les limites de la liberté d'expression en ligne. Il cherche à porter un éclairage sur un paysage souvent obscur : qu'avons-nous le droit de dire en ligne ? Comment sont protégés nos idées et le processus de diffusion et de réception des informations ? Il expose le large éventail des droits protégés par la liberté d'expression, dont la liberté des médias et le droit d'accéder à des informations par le biais d'internet. Il souligne aussi l'importance des initiatives d'organisations internationales et non gouvernementales visant à définir des règles, et à assurer leur suivi et leur promotion. Un chapitre consacré aux

pratiques nationales rapporte les réactions de différents pays confrontés à la difficulté d'assurer la liberté d'expression pour tous à l'ère d'internet. Alors que la Toile occupe de plus en plus de place dans notre quotidien, ce livre est une ressource précieuse pour comprendre les droits et les obligations de chaque acteur d'internet : États, entreprises et société civile.

Stock of Ten Years of BRI Projects in Malaysia -- The Kyaukphyu Special Economic Zone: the Chinese State-Owned Enterprise's Business Practices and the Local Responses -- NESTING FOR EAGLES TO LAY EGGS: How did public critiques transformed SEZ policy in Vietnam -- Chinese Nomadic Recycling Industry: A Socio-ecological Fix in the BRI-EEC Alignment -- Impacts of the Belt and Road Initiative in Lao PDR on the Transborder Cattle Trade in Southeast Asia -- Seeing the Silent Voices: Understanding Local Responses to China's Railway Construction in Laos and Thailand -- Chinese Agricultural investment and Land Governance in Southeast Asia.

Sommario/riassunto

Drawing insights from intensive empirical investigation of the Belt and Road Initiative (BRI) projects in various Southeast Asian countries, this book assesses and analyzes the continuing impact of China's BRI on Thailand and ASEAN at a critical period of Southeast Asian history. Over the past decade, the BRI, a large flagship foreign policy effort of President Xi Jinping, has had a significant economic, political, and environmental impact across the world. Since its inception, the BRI has remained shrouded in confusion and controversy. The Covid-19 pandemic also presented additional challenges for our understanding of the BRI that warrant further exploration. This volume places special focus on special economic zones (SEZs) and high-speed train projects, and comparatively examines and critically analyzes the risks and benefits stemming from these megaprojects. Breaking away from existing academic studies on the BRI, which have been largely based on macro analysis with a top-down approach and theoretical deliberation, this book focuses on local realities with a qualitative approach to identify the potential impact of the BRI on the development of ASEAN countries. By way of a bottom-up, empirically-rich, first-hand ethnographic account of the risks and benefits of the BRI projects at the local, national, and regional levels in ASEAN, this book makes a substantial contribution to multiple disciplinary arenas, from anthropology, sociology, and history, to political science and international relations, with particular relevance to those researching China and its relationships with Southeast Asia.
