Sommario/riassunto	This book explores the impact of geopolitical changes on financial reporting, transfer pricing, and foreign investment flows. It focuses on how geopolitical instability affects companies in emerging and developing economies, highlighting shifts in international reporting and risk management. The main objectives are to analyze transformations in the internationalization of business, assess the impact of accounting information on investment attraction, and

evaluate tax policies. In the context of a changing geopolitical environment and the rise of economic multipolarity, particularly with a focus on BRICS economies, the book addresses the strategic adaptations needed in financial reporting and compliance. Offering an in-depth perspective on the complexity and interconnectedness of today's risks, this book is an essential guide for scholars and financial professionals navigating the global economic landscape.
