Sommario/riassunto	The third edition of ONS's Advanced Oncology Nursing Certification Review and Resource Manual prepares nurses for any Oncology Nursing Certification Corporation advanced oncology certification examination through an all-inclusive clinical resource. The book provides a thorough overview of oncology advanced practice and includes the framework from the recent American Association of Colleges of Nursing publication The Essentials: Core Competencies for Professional Nursing Education, which re-envision nursing education. Each chapter contains content on sample subjective, objective, and assessment and plan notes; case studies; and relevant nursing and interprofessional resources--with practice test questions similar in structure to the

questions used in the exam.
