

1. Record Nr.	UNINA9910986138903321
Autore	Pollice Alessio
Titolo	Methodological and Applied Statistics and Demography I : SIS 2024, Short Papers, Plenary and Specialized Sessions / / edited by Alessio Pollice, Paolo Mariani
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	9783031643460 3031643461
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (538 pages)
Collana	Italian Statistical Society Series on Advances in Statistics, , 3059-2143
Altri autori (Persone)	MarianiPaolo
Disciplina	519.5
Soggetti	Mathematical statistics - Data processing Quantitative research Demography Population Artificial intelligence - Data processing Statistical Theory and Methods Applied Statistics Statistics and Computing Data Analysis and Big Data Population and Demography Estadística Estadística matemàtica Processament de dades Investigació quantitativa Demografia Població Intel·ligència artificial Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Preface -- Plenary Sessions -- Specialized Sessions.

Sommario/riassunto

This book of peer-reviewed short papers on methodological and applied statistics and demography is the first of four volumes from the 52nd Scientific Meeting of the Italian Statistical Society (SIS 2024), held in Bari, Italy, on June 17-20, 2024. It features invited contributions presented in the Plenary and Specialized Sessions. The volumes address a large number of topics and applications of current interest. The topics covered include, but are not limited to, statistical theory and methods, sampling theory, Bayesian statistics, statistical modeling, computational statistics, classification, data analysis, gender statistics and applied statistics. The applications reflect new analyses in a wide variety of fields, including demography, psychometrics, education, business, economics, finance, law, and other social sciences and humanities, epidemiology, the life and health sciences as well as the environmental and natural sciences and engineering. This variety also demonstrates the important role of statistical science in addressing the societal and environmental challenges of sustainable development. One of the aims of the Italian Statistical Society (SIS) is to promote scientific activities for the development of statistical sciences. Its biennial international Scientific Meeting represents the Society's largest event which brings together national and international researchers and professionals to exchange ideas and discuss recent advances and developments in theoretical and applied statistics.
