Exploring Cultural Traditions: Uncovering Place Attachment and Urban Identity through Local Communities in Bali. Chapter 10. Rejuvenation of Yamuna River Precinct - Case of Delhi Region.-...Etc.

Sommario/riassunto

This book explores aspects of creating cities and structures with a focus on sustainability. It provides an analysis of contemporary methodologies, technologies, and principles essential for designing urban environments and buildings that significantly reduce environmental impact. Moreover, it emphasizes the importance of energy efficiency, resource conservation, and the integration of green spaces to enhance the quality of life for urban dwellers. Covering a broad spectrum of topics, from sustainable urban mobility to green architecture and smart city initiatives, this book serves as an invaluable resource for professionals, researchers, and students. Furthermore, it aims to inspire and guide those dedicated to developing a sustainable future through innovative and responsible urban planning and architectural design practices.
