Sommario/riassunto	"National politics has a significant impact on organizing and accessing community welfare. This book engages with notions of everyday politics within two London-based food co-ops emerging from different political environments and ideologies. It provides a careful and engaging examination of the experiences of political and economic change in Austerity Britain, revealing how national politics came to punctuate everyday lives within the co-ops. It highlights the political resonances that practices of care, aid and community organizing came to have within the food co-ops at a time of rapid welfare withdrawal, as well as the tensions between more radical and neoliberal imaginaries that played out within them"-- Provided by publisher.
