Sommario/riassunto	This book explores the historical and contemporary experiences of the Chinese in Sukabumi, Indonesia, including their migration to the region, their economic activities, and their relationships with the local population. The book also examines the cultural practices of the Chinese in Sukabumi, including their religion, language, and traditions, and how they have adapted to the local culture. Through extensive research and analysis, the author provides a detailed account of the ways in which the Chinese of Sukabumi have navigated their place in

Indonesian society, and the challenges they have faced in doing so. Presented as a co-published edition with Yayasan Pustaka Obor Indonesia, and released in memoriam to the late Mely G. Tan, this edition of *The Chinese of Sukabumi* honours this original comprehensive study of the social and cultural adaptation of the Chinese community in Sukabumi with the aim of bringing it to a wider international audience. It is an essential resource for scholars and students of Southeast Asian studies, as well as anyone interested in the cultural and social dynamics of the Chinese diaspora.
