Edizione	[1st ed.]
Descrizione fisica	1 online resource (xxiii, 360 pages) : illustrations, maps
Altri autori (Persone)	AnneckeEve
Disciplina	338.9/27091724
Soggetti	Sustainable development - Developing countries Natural resources - Developing countries - Management Sustainable development - South Africa Developpement durable - Afrique du Sud BUSINESS & ECONOMICS - Industries - General Developing countries Economic conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction: on becoming visible -- Part I. Complexity, sustainability and transition. Ch. 1. Complexity and sustainability -- Ch. 2. What is so unsustainable? -- Ch. 3. Crisis, transitions and sustainability -- Part II. Rethinking development. Ch. 4. Greening the developmental state -- Ch. 5. Rethinking urbanism -- Ch. 6. Soils, land and food security -- Part III. From resource wars to sustainable living. Ch. 7. Resource wars, failed states and blood consumption: insights from Sudan -- Ch. 8.

Transcending resource and energy-intensive growth: lessons from South Africa -- Ch. 9. Decoupling, urbanism and transition in Cape Town -- Ch. 10. Pioneering liveable urbanism: reflections on an invisible way.

Sommario/riassunto

Current economic growth strategies around the world are rapidly depleting the natural resources and ecosystem services that we depend on. Just Transitions provides a comprehensive overview of these challenges from a Global South perspective. The authors ask: How do developing countries eradicate poverty via economic development, while at the same time facing the consequences of global warming and dwindling levels of cheap oil, productive soils, metals, clean water supplies, and forest products? How do they address widening inequalities in income as well as the need to rebuild ecosystem services and natural resources? The book considers the theme of a just transition, which reconciles the sustainable use of natural resources with a pervasive commitment to sufficiency (where overconsumers are satisfied with less so that underconsumers can secure enough). It explores a range of different viewpoints and ideas and synthesizes them to illuminate new ways of thinking from a sustainability perspective. It rethinks development with special reference to the greening of the developmental state, explores the key role that cities could play in the transition to a more sustainably urbanized world, and highlights the neglect of soils in the global discussions around the potential of sustainable agriculture to feed the world. Case studies drawn from the African continent detail the challenges, but they are set in the context of global trends. The authors conclude with their experiences in building a community that aspires to live sustainably.

Sommario/riassunto	This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series: they are collections of at least ten articles, all centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area! Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office: frontiersin.org/about/contact
