

1. Record Nr.	UNINA9911001462203321
Titolo	Advances in Microbiology, Infectious Diseases and Public Health : Volume 20 / / edited by Gianfranco Donelli
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-031-85641-4
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (VIII, 134 p. 12 illus., 8 illus. in color.)
Collana	Advances in Microbiology, Infectious Diseases and Public Health, , 2365-2683 ; ; 1476
Disciplina	579
Soggetti	Microbiology Public health Medicine, Preventive Health promotion Public Health Health Promotion and Disease Prevention
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Antimicrobial Potential of Cocos nucifera (Coconut) oil on Bacterial Isolates -- Exploring innovative approaches to isolate a one-component c-di-GMP transducer: a pilot study -- The Detection Limits of Legionella According to the EU Directive 2020/2184. Could That Be Too Permissive? -- Exploring the metabolic response of <i>Pseudomonas putida</i> to L-arginine -- Antifungal Stewardship in Invasive Fungal Infections, a Systematic Review -- Establishment of a 3D-printed tissue-on-a-chip model for live-imaging of bacterial infections -- Breaking Down Bone Disease in people living with HIV: Pathophysiology, Diagnosis, and Treatment -- Strengthening Public Health Systems to Combat the Rising Threat of Nipah Virus: A Call for Global Preparedness and Response.
Sommario/riassunto	This book series focuses on current progress in the broad field of medical microbiology, and covers both basic and applied topics related to the study of microbes, their interactions with human and animals, and emerging issues relevant for public health. Original research and review articles present and discuss multidisciplinary findings and

developments on various aspects of microbiology, infectious diseases, and their diagnosis, treatment and prevention. The book series publishes review and original research contributions, short reports as well as guest edited thematic book volumes. All contributions will be published online first and collected in book volumes. There are no publication costs. *Advances in Microbiology, Infectious Diseases and Public Health* is a subseries of *Advances in Experimental Medicine and Biology*, which has been publishing significant contributions in the field for over 30 years and is indexed in Medline, Scopus, EMBASE, Biological Abstracts, CSA, Biological Sciences and Living Resources (ASFA-1), and Biological Sciences. Chapter 6 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.
