Sommario/riassunto

The book discusses public policy, business strategies, building diverse and inclusive societies, securing climate justice, and building business resilience for the future, analyzing India and Europe simultaneously with the help of comparative design along with dedicated chapters on single country or region from the two entities. Situated in the contemporary times, the book dives into some of the most pressing issues of our times in two entities known for their diverse societies and democratic outlook. The book delves into domestic and international aspects when looking at the formulation and implementation of public policy. It also deals with the changing geo-political realities and how that has impacted domestic concerns and policies. From literature and theoretical contributions, the book has quantitative and qualitative chapters suitable for expert as well as general reading. This book is a valuable resource not just for university students, but research community, think tanks and people in governance; largely those involved in public policy. Importantly, this book would also serve as an important resource for scholars of international studies. The scholars of comparative public policy would find this book a much need addition to the field as the book looks at public policy from a comparative lens apart from single-country cases studies. Finally, given the relevance, scope, and access of understanding, the book can be read by anyone interested in workings of public policy, India, or Europe.
