Edizione	[1st edition]
Descrizione fisica	1 online resource (319 p.)
Classificazione	ARC000000ARC001000ARC005000
Disciplina	720.1
Soggetti	Architecture and philosophy Perspective (Philosophy)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from content provider.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Book Cover; Half-Title; Title; Copyright; Dedication; Contents; Illustration credits; Acknowledgements; Introduction; 1. Order and chaos, or "What to leave out?"; 2. Number, geometry and dialectic; 3. Light, memory and colour; 4. Topography, rhetoric and the vanishing point; 5. Unity in multiplicity; 6. Nature and immensity; 7. Disjointed views; Conclusion; Notes; Index
Sommario/riassunto	This study examines the influence of perspective on architecture, highlighting how critical historical changes in the representation and perception of space continue to inform the way architects design. Since its earliest developments, perspective was conceived as an exemplary form of representation that served as an ideal model of how everyday existence could be measured and ultimately judged. Temple argues that underlying the symbolic and epistemological meanings of perspective there prevails a deeply embedded redemptive view of the world that is deemed perfectible. Temple explores this idea through a genealogical investigation of the cultural and philosophical contexts of

perspective throughout history, highlighting how these developments influenced architectural thought. This broad historical enquiry is accompanied by a series of case-studies of modern or contemporary buildings, each demonstrating a particular affinity with the accompanying historical model of perspective.
