1. Record Nr. UNINA9910709560003321

Autore	Cunningham Diane
Titolo	Data bases available at the National Institute of Standards and Technology Research Information Center / / Diane Cunningham
Pubbl/distr/stampa	Gaithersburg, MD : , : U.S. Dept. of Commerce, National Institute of Standards and Technology, , 1988
Descrizione fisica	1 online resource
Collana	NIST special publication ; ; 753
Altri autori (Persone)	CunninghamDiane
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	1988. Contributed record: Metadata reviewed, not verified. Some fields updated by batch processes. Title from PDF title page.
Nota di bibliografia	Includes bibliographical references.

2. Record Nr. UNINA9911003691003321

Titolo	Conference Proceedings of the 2024 4th International Joint Conference on Energy, Electrical and Power Engineering : Volume II / / edited by Yawei Hu, Wenping Cao, Cungang Hu
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2025
ISBN	981-9648-12-2
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (XV, 323 p. 207 illus., 177 illus. in color.)
Collana	Lecture Notes in Electrical Engineering, , 1876-1119 ; ; 1403
Disciplina	621.31
Soggetti	Electric power production Automatic control Renewable energy sources Wind power Solar energy Energy storage Electrical Power Engineering Control and Systems Theory Renewable Energy Wind Energy Solar Thermal Energy Mechanical and Thermal Energy Storage
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Energy, Electrical, and Power Engineering are dynamic fields undergoing rapid change and innovation. This volume encompasses cutting-edge research and advances in electrical and power engineering, covering a wide range of topics including power electronics technology, renewable energy generation, intelligent control systems, and more. With contributions from renowned experts and scholars, it provides valuable insights and innovative solutions to address the challenges and opportunities in the ever-evolving energy landscape. This volume serves as a comprehensive resource for staying

abreast of the latest trends and act as a catalyst for advancing this dynamic field. Following the success of the CoEEPE 2021, 2022 and 2023, this volume will provide resources for a diverse readership, including professionals, scientists, practitioners, researchers, and graduate students.
