|-------------------------|--|
| 1. Record Nr. | UNINA9911004699603321 |
| Titolo | Use of personal monitors to estimate effective dose equivalent and effective dose to workers for external exposure to low-LET radiation [[electronic resource]] : recommendations of the National Council on Radiation Protection and Measurements |
| Pubbl/distr/stampa | Bethesda, MD, : The Council, 1995 |
| ISBN | 1-4356-2995-7 |
| Descrizione fisica | 1 online resource (70 p.) |
| Collana | NCRP report ; ; no. 122 |
| Disciplina | 616.9/89705 |
| Soggetti | Radiation dosimetry Radiation workers - Health and hygiene |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | "Issued December 27, 1995." |
| Nota di bibliografia | Includes bibliographical references (p. 39-42) and index. |
| Nota di contenuto | ""Cover""; ""Preface ""; ""Contents ""; ""1. Introduction ""; ""1.1 Background and Scope ""; ""1.2 Effective Dose Equivalent and Effective Dose ""; ""2. Use of Personal Monitors for Workers in the United States ""; ""2.1 Calibration of Personal Monitors ""; ""2.2 Number and Location of Personal Monitors on Individuals ""; ""3. Estimating Effective Dose Equivalent or Effective Dose in Practice Using Personal Monitors "" ""3.1 Use of Personal Dose Equivalent for a Strongly-Penetrating Radiation Value Determined with One Personal Monitor as a Surrogate for Effective Dose Equivalent or Effective Dose "" ""3.2 Use of Personal Dose Equivalent for Strongly-Penetrating Radiation Values Determined from Two Personal Monitors to Estimate Effective Dose Equivalent or Effective Dose ""; ""3.3 Specific Approach When Protective Aprons Are Worn During Diagnostic Interventional Medical Procedures Using Fluoroscopy ""; ""4. Recommendations "" ""4.1 Use of Personal Dose Equivalent for a Strongly-Penetrating Radiation Value Determined with One Personal Monitor as a Surrogate for Effective Dose Equivalent "" ""4.2 Use of Personal Dose Equivalent for Strongly-Penetrating Radiation Values Determined from Two Personal Monitors to Estimate Effective Dose Equivalent ""; ""4.3 When a Protective Apron Is Worn During Diagnostic and Interventional Medical Procedures Using Fluoroscopy ""; ""References ""; ""The NCRP ""; |
