

1. Record Nr.	UNINA9911004700203321
Titolo	Corrosion inhibitors for steel in concrete : state of the art report // edited by B. Elsener
Pubbl/distr/stampa	London, : Maney Pub., 2001
ISBN	1-907625-42-9 1-60119-175-8
Descrizione fisica	1 online resource (78 p.)
Collana	European Federation of Corrosion publications ; ; no. 35 Book ; ; no. 773
Altri autori (Persone)	ElsenerBernhard
Disciplina	620.1723
Soggetti	Steel, Structural - Corrosion Reinforced concrete - Corrosion Corrosion and anti-corrosives
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Published for the European Federation of Corrosion by Maney on behalf of the Institute of Materials."
Nota di bibliografia	Includes bibliographical references (p. [57]-64).
Nota di contenuto	Contents; Series Introduction; Preface; Introduction; Corrosion Inhibitors for Use in Concrete; Literature Results on Corrosion Inhibitors for Steel in Concrete; Critical Evaluation of Corrosion Inhibitors; Test Methods to Evaluate Corrosion Inhibitors for Steel in Concrete; Ongoing Research Work; Concluding Remarks; References; Abbreviations; Appendix: List of Ongoing Research Projects
Sommario/riassunto	This report describes in detail the different commercial inhibitors available for use in concrete and considers their mechanistic action together with experience from laboratory and field tests. Also deals with the possible effects of inhibitors on concrete properties and with their long term efficiency. Various test methods for evaluating the behaviour of corrosion inhibitors for steel in concrete are described and critically assessed.
