

1. Record Nr.	UNINA9911004705203321
Titolo	Sampling for biological agents in the environment
Pubbl/distr/stampa	[Place of publication not identified], : ASM Press, 2008
ISBN	1-55581-747-5 1-61344-261-0
Disciplina	363.325
Soggetti	Biological monitoring Biological weapons Environmental sampling Biological Warfare - prevention & control Bacteria - isolation & purification Environmental Exposure - prevention & control Specimen Handling - methods Public Health Health & Biological Sciences Toxicology & Public Health
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Missteps and mistakes: lessons learned from real-world incidents / Peter Emanuel -- Getting started: planning the sample mission / Mark Durno, Myles Bartos, and Jack Kelly -- Sampling teams / Daniel Martin and Anthony Intrepido -- The role of sampling in the phases of a biological event: fact and fiction in an airport scenario / Matt Gillen -- Surface sampling / Anne Busher, Judith Noble-Wang, and Laura Rose -- Indoor and outdoor air sampling / Kristin Omberg and Linda Stetzenbach -- Environmental samples as evidence: labeling and documentation at a crime scene / Steven Drielak -- Sample packaging and transport: biosafety from cradle to grave / Nick Cirino and David Cook -- Laboratory resources / Jason W. Roos and Christina Egan -- Environmental sampling today: advances since the 2001 anthrax attacks / Dorothy Canter.
