

1. Record Nr.	UNINA9911004710803321
Titolo	Green vegetable oil processing
Pubbl/distr/stampa	[Place of publication not identified], : AOCS Press, 2012
ISBN	1-61344-995-X
Disciplina	665
Soggetti	Vegetable oils Separation (Technology) Sustainable engineering Chemical & Materials Engineering Engineering & Applied Sciences Chemical Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Extrusion/expeller pressing as a means of processing "green oils and meals" -- Modern aqueous oil extraction : centrifugation systems for olive and avocado oils -- Aqueous extraction of corn oil after fermentation in the dry grind ethanol process -- Supercritical carbon dioxide extraction -- Drying and cooling collets from expanders with major energy savings -- Algae drying and extraction -- Enzymatic degumming -- Membrane degumming and refining -- Nano-neutralization -- Physical refining -- Hydrogenation -- Ice condensing vacuum systems for deodorizers for substantial energy savings -- Enzymatic interesterification -- CLA production by photoisomerization of linoleic acid in linoleic acid rich oils.
