Titolo	Thermal barrier coatings // edited by Huibin Xu and Hongbo Guo
Pubbl/distr/stampa	Cambridge, : Woodhead Pub., 2011
ISBN	0-85709-082-8 1-61344-377-3
Descrizione fisica	1 online resource (358 p.)
Collana	Woodhead Publishing Series in Metals and Surface Engineering
Altri autori (Persone)	XuHuibin GuoHongbo
Disciplina	667.9
Soggetti	Heat resistant materials Shielding (Heat) Ceramic coating Coatings - Thermal properties
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Materials and structure -- pt. 2. Processing and spraying techniques -- pt. 3. Performance of thermal barrier coatings.
Sommario/riassunto	Effective coatings are essential to counteract the effects of corrosion and degradation of exposed materials in high-temperature environments such as gas turbine engines. Thermal barrier coatings reviews the latest advances in processing and performance of thermal barrier coatings, as well as their failure mechanisms. Part one reviews the materials and structures of thermal barrier coatings. Chapters cover both metallic and ceramic coating materials as well as nanostructured coatings. Part two covers established and advanced processing and spraying techniques, with chapters on the latest advanc

Sommario/riassunto

Caring for a loved one with an eating disorder is a difficult task; carers often find it hard to cope, and this can contribute to the maintenance of the disorder. The Clinician's Guide to Collaborative Caring in Eating Disorders shows how active collaboration between professional and non-professional carers can maximise the quality of life for both the sufferer and all other family members. The book provides straightforward guidance for clinicians who work with families and carers. It suggests ways of ensuring that interpersonal elements that can maintain eating disorder
