

1. Record Nr.	UNINA9911004737703321
Autore	Gers Juan M
Titolo	Protection of electricity distribution networks / / Juan M. Gers and Edward J. Holmes
Pubbl/distr/stampa	Herts, U.K., : Institution of Electrical Engineers, c2011
ISBN	1-61344-317-X 1-283-25342-9 9786613253422 1-84919-224-3
Edizione	[3rd. ed.]
Descrizione fisica	1 online resource (367 p.)
Collana	Power and energy series ; ; 47
Altri autori (Persone)	HolmesE. J. <1928->
Disciplina	621.31 621.31/7 621.319
Soggetti	Electric power systems - Protection Electric power distribution Electric power transmission
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [297]-299) and index.
Nota di contenuto	Contents; Preface and acknowledgements; Preface to second edition; Preface to third edition; 1: Introduction; 2: Calculation of short-circuit currents; 3: Classification and function of relays; 4: Current and voltage transformers; 5: Overcurrent protection; 6: Fuses, reclosers and sectionalisers; 7: Directional overcurrent relays; 8: Differential protection; 9: Distance protection; 10: Protection of industrial systems; 11: Industrial plant load shedding; 12: Protection schemes and substation design diagrams; 13: Communication networks for power systems automation 14: Installation, testing and maintenance of protection systemsAppendix: Solutions to exercises; Bibliography; Index
Sommario/riassunto	Combining a theoretical background with examples and exercises, this book allows the reader to easily follow requirements for high quality electrical service in utilities and industrial facilities around the world.
