

1. Record Nr.	UNINA9911004805503321
Autore	Lynch David (David D.)
Titolo	Introduction to RF stealth / / David Lynch, Jr
Pubbl/distr/stampa	Raleigh : , : SciTech Pub., , [2004] ©2004
ISBN	1-61353-173-7 1-59124-809-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (587 pages) : illustrations
Collana	The SciTech radar and defense series Introduction to RF stealth
Disciplina	623/.7348
Soggetti	Low probability of intercept radar Radar - Military applications Signal detection - Mathematics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Contents -- Preface -- Acknowledgments -- Introduction to Stealth Systems -- Interceptability Parameters and Analysis -- Intercept Receivers -- Exploitation of the Environment -- Stealth Waveforms -- Stealth Antennas and Radomes -- Signal Processing -- Appendix A -- Glossary -- Index.
Sommario/riassunto	This expanded, revised and updated new edition covers two major topics: low observables and low probability of intercept (LO and LPI) of Radars and data links, collectively sometimes called stealth. Each chapter includes examples, student exercises, references and counterpart appendices.
