

1. Record Nr.	UNINA9911006517603321
Autore	Imoize Agbotiname Lucky
Titolo	Cybersecurity in Emerging Healthcare Systems
Pubbl/distr/stampa	Stevenage : , : Institution of Engineering & Technology, , 2024 ©2024
ISBN	1-83724-345-X 1-5231-6328-3 1-83953-952-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (660 pages)
Collana	Healthcare Technologies Series
Altri autori (Persone)	MeshramChandrashekhar AwotundeJoseph Bamidele FarhaouiYousef oinh Thuan
Disciplina	610.28558
Soggetti	Computer security Data protection
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Contents -- Preface -- About the editors -- 1. An overview of cybersecurity in emerging healthcare systems Daniel Dauda Wisdom and Olufunke Rebecca Vincent -- 2. Cybersecurity in the Internet of Medical Things for healthcare applications Hawau I. Olagunju, Emmanuel Alozie, Agbotiname Lucky Imoize, Nasir Faruk, Salisu Garba and Bashir Abdullahi Baba -- 3. Adaptive cybersecurity: AI-driven threat intelligence in healthcare systems Oleksandr Kuznetsov, Emanuele Frontoni, Natalia Kryvinska, Dmytro Prokopovych-Tkachenko and Boris Khruskov -- 4. Emerging trends in cybersecurity applications in healthcare systems Kassim Kalinaki, Rufai Yusuf Zakari and Wasswa Shafik -- 5. Convolutional neural networks enabling the Internet of Medical Things: security implications, prospects, and challenges Peace Busola Falola, Joseph Bamidele Awotunde, Abidemi Emmanuel Adeniyi and Agbotiname Lucky Imoize -- 6. Deadly cybersecurity threats in emerging healthcare systems Promise Elechi, Kingsley Eyiogwu Onu and Nne Rena Saturday -- 7. Artificial intelligence for secured cybersecurity in emerging healthcare systems Abdulwaheed Musa and

Abdulhakeem Oladele Abdulfatai -- 8. Deep based anomalies detection in emerging healthcare system | Babu Kaji Baniya and Thomas Rush -- 9. Smart contracts for automated compliance in healthcare cybersecurity | Oleksandr Kuznetsov, Emanuele Frontoni, Natalia Kryvinska, Oleksii Smirnov and Andrii Hrebeniuk -- 10. Cybersecurity computing in modern healthcare systems | Lateef Adesola Akinyemi, Ernest Mnkandla and Mbuyu Sumbwanyambe -- 11. Blockchain for secured cybersecurity in emerging healthcare systems | Abidemi Emmanuel Adeniyi, Rasheed Gbenga Jimoh, Joseph Bamidele Awotunde, Halleluyah Oluwatobi Aworinde, Peace Busola Falola and Deborah Olufemi Ninan -- 12. The ethics of cybersecurity in emerging healthcare systems | Abubakar Aliyu, Emeka Ogbuju, Agbotiname Lucky Imoize, Ovy John Abari, Musa Muhammad Kunya, Godwin Sani, Folashade Aminat Salaudeen and Francisca Oladipo -- 13. Examining the complex interactions between cybersecurity and ethics in emerging healthcare systems | Richard Govada Joshua and Agbotiname Lucky Imoize -- 14. Securing modern insulin pumps with iCGM system: protecting patients from cyber threats in diabetes management | Lavanya Mandava, Husam Ghazaleh and Guilin Zhao -- 15. Artificial intelligence and machine learning for DNS traffic anomaly detection in modern healthcare systems | Sarafudheen Muzaliamveetil Tharayil, Abdullah Saeed Al-Ahmari, Abdallah Mohammad Baabdallah and Uma Madesh -- 16. Harnessing edge computing for real-time cybersecurity in healthcare systems | Oleksandr Kuznetsov, Emanuele Frontoni, Natalia Kryvinska, Sarychev Volodymyr and Tetiana Smirnova -- 17. Enhancing healthcare data security: an intrusion detection system for web applications with SVM and decision tree algorithms | Micheal Olaolu Arowolo, Ominini Adango Jaja, Oluwatosin Faith Adeniyi, Prisca Olawoye, Oluwatomilola Babajide, Happiness Eric Aigbogun and Mukhtar Damola Salawu -- 18. Legal and regulatory policies for cybersecurity and information assurance in emerging healthcare systems | Abdulwaheed Musa and Segun Ezekiel Jacob -- 19. Federated learning for enhanced cybersecurity in modern digital healthcare systems | Rufai Yusuf Zakari, Kassim Kalinaki, Zaharaddeen Karami Lawal and Najib Abdulrazak -- 20. Directed acyclic graph-based blockchains for enhanced cybersecurity in the Internet of Medical Things | Abubakar Aliyu, Abubakar Aminu Mu'azu and Aminu Adamu -- 21. Detection and mitigation of cyber attacks in healthcare systems | Adeyemo Adetoye, Abiodun Adeyinka, Abidemi Emmanuel Adeniyi, Ozichi Nweke Emuoyibofarhe, Olanloye Odunayo and Chinecherem Umezurike -- 22. Cybersecurity concerns and risks in emerging healthcare systems | Ozichi Nweke Emuoyibofarhe, Adetoye Adeyemo, Dauda Odunayo Olanloye, Abidemi Emmanuel Adeniyi and Christian O. Osueke -- Index

Sommario/riassunto

This edited book presents various cyber security risks and vulnerability models of different healthcare systems and discusses how the application of artificial intelligence and machine learning-based solutions may help to address cyberattacks in these emerging systems.
