

1. Record Nr.	UNINA9911006535103321
Autore	Rollins Kyle M
Titolo	Design guidelines for increasing the lateral resistance of highway-bridge pile foundations by improving weak soils
Pubbl/distr/stampa	[Place of publication not identified], : Transportation Research Board, 2011
ISBN	1-62198-247-5
Collana	NCHRP report Design guidelines for increasing the lateral resistance of highway-bridge pile foundations by improving weak soils
Soggetti	Piling (Civil engineering) - Foundations and piers Soil stabilization Lateral loads Bridges Earth pressure Civil & Environmental Engineering Engineering & Applied Sciences Civil Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
