

1. Record Nr.	UNINA9911006606903321
Autore	Mills David
Titolo	Pneumatic conveying design guide / / David Mills
Pubbl/distr/stampa	Amsterdam ; ; London, : Elsevier/Butterworth-Heinemann, 2004
ISBN	1-280-96634-3 9786610966349 0-08-047379-2
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (650 p.)
Disciplina	621.8672
Soggetti	Pneumatic-tube transportation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previous ed.: 1990.
Nota di contenuto	Cover; Pneumatic Conveying Design Guide; Contents; Preface; Part A: Systems and Components; Part B: System Design; Part C: System Operation; Appendix 1: Determination of relevant material properties; Appendix 2: Additional conveying data; Index
Sommario/riassunto	The Pneumatic Conveying Design Guide will be of use to both designers and users of pneumatic conveying systems. Each aspect of the subject is discussed from basic principles to support those new to, or learning about, this versatile technique. The Guide includes detailed data and information on the conveying characteristics of a number of materials embracing a wide range of properties. The data can be used to design pneumatic conveying systems for the particular materials, using logic diagrams for design procedures, and scaling parameters for the conveying line configuration. Wh
