

1. Record Nr.	UNINA9911006613903321
Autore	Kletz Trevor A
Titolo	Still going wrong! : case histories of process plant disasters and how they could have been avoided // Trevor Kletz
Pubbl/distr/stampa	Amsterdam ; ; Boston, : Gulf Professional Pub., 2003
ISBN	1-281-22274-7 9786611222741 0-08-046992-2
Descrizione fisica	1 online resource (251 p.)
Disciplina	660/.2804
Soggetti	Chemical plants - Accidents
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Contents; Forethoughts; Introduction; Acknowledgment; A Note on Nomenclature; Chapter 1. Maintenance; Chapter 2. Entry into Confined Spaces; Chapter 3. Changes to Processes and Plants; Chapter 4. Changes in Organization; Chapter 5. Changing Procedures Instead of Designs; Chapter 6. Materials of Construction (including Insulation); Chapter 7. Operating Methods; Chapter 8. Explosions; Chapter 9. Poor Communication; Chapter 10. I Did Not Know That; Chapter 11. Control; Chapter 12. Leaks; Chapter 13. Reactions-Planned and Unplanned Chapter 14. Both Design and Operations Could Have Been Better Chapter 15. Accidents in Other Industries; Chapter 16. Accident Investigation-Missed Opportunities; Some Tips for Accident Investigators; Afterthoughts; Index
Sommario/riassunto	This is Trevor Kletz's follow up to his extremely successful <i>What Went Wrong? Case Histories of Process Plant Disasters</i> . In it, Kletz reinforces the messages in his now-classic book of famous case histories, but the majority of the book covers points not covered in the original. This new volume will focus more on procedural changes that can be made, not only at the technical or engineering levels, but at the managerial level, to prevent disasters from happening.* This volume follows up on the cases and strategies outlined in the original million-dollar seller: <i>""What Went Wrong""</i>
