

1. Record Nr.	UNINA9911006652403321
Autore	Chandra Abhijit
Titolo	Boundary element methods in manufacturing / / Abhijit Chandra, Subrata Mukherjee
Pubbl/distr/stampa	New York ; , : Oxford University Press, , 2023
ISBN	0-19-773211-9 1-61344-945-3 1-280-44322-7 9786610443222 1-4237-6488-9 0-19-535997-6 1-60129-909-5
Descrizione fisica	1 online resource (525 p.)
Collana	Oxford engineering science series ; ; 47 Oxford scholarship online
Disciplina	670.151535 670.42015118
Soggetti	Manufacturing processes - Mathematical models Boundary element methods
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previously issued in print: 1997.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; 1 Introduction; 2 Problems Involving Large Strains and Rotations; 3 Thermal Problems; 4 Design Sensitivities and Optimization; 5 Planar Forming Processes; 6 Axisymmetric Forming Processes; 7 Solidification Processes; 8 Machining Processes; 9 Integral Equations for Ceramic Grinding Processes; Index
Sommario/riassunto	Numerical simulation of manufacturing processes, and its integration into the design cycle, are the dual themes of this book. The numerical method used is the Boundary Element Method (BEM).
