

1. Record Nr.	UNINA9911006672803321
Autore	IAEA
Titolo	Lessons Learned in Regulating Small Modular Reactors
Pubbl/distr/stampa	Vienna : , : International Atomic Energy Agency, , 2022 ©2022
ISBN	9781523149858 152314985X 9789201249227 9201249225
Edizione	[1st ed.]
Descrizione fisica	1 online resource (519 pages)
Collana	IAEA TECDOC Series No ; ; v.2003
Disciplina	333.7924
Soggetti	Nuclear energy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	There is considerable interest in Member States in the design and deployment of Small Modular Reactors (SMRs). However, there is limited information available about international regulatory experience in this field. This publication identifies key regulatory challenges and lessons learned that have emerged in regulatory reviews and decision making related to SMRs in Member States and provides considerations on future actions. It is expected that this publication will help enhance the effectiveness of regulating SMRs deployed in the short and medium term.

2. Record Nr.	UNISA996639661003316
Autore	Gowers Emily
Titolo	The Small Stuff of Roman Antiquity

Sommario/riassunto	A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. Why are the small and unimportant relics of Roman antiquity often the most enduring, in material form and in our affections? Through close encounters with minor things such as insects, brief lives, quibbles, irritants, and jokes, Emily Gowers provocatively argues that much of what the Romans dismissed as superfluous or peripheral in fact took up immense imaginative space. It was often through the small stuff that the Romans most acutely probed and challenged their society's overarching values and priorities and its sense of proportion and justice. There is much to learn from what didn't or shouldn't matter. By marking the spots where the apparently pointless becomes significant, this book radically adjusts our understanding of the Romans and their world, as well as our own minor feelings and intimate preoccupations.
