Fire Safety Management; Chapter 5. Human Factors in Fire Safety; Chapter 6. Arson; Chapter 7. Common Causes of Workplace Fires; Chapter 8. Combustion and Flammability; Chapter 9. Explosions; Chapter 10. Flammable Liquids; Index
Sommario/riassunto	Significant loss to business occurs through fires in the workplace. Whether large or small, fire causes personal suffering, damage to plant, equipment and buildings, and loss of business. Fire legislation has changed over the past few years, especially with the introduction of European Directives. New regulations mean that employers have to carry out fire risk assessment and then, as a result of their findings, put in place control measures to prevent loss of life. Fire Hazards in Industry has been designed to cover, in general terms, exactly what is required of employers. It is
