

1. Record Nr.	UNINA9911006716103321
Autore	Subudhi Bidyadhar
Titolo	Control, Communication, Monitoring and Protection of Smart Grids
Pubbl/distr/stampa	Stevenage : , : Institution of Engineering & Technology, , 2024 ©2024
ISBN	1-83724-368-9 1-5231-6333-X 1-83953-805-8
Edizione	[1st ed.]
Descrizione fisica	1 online resource (416 pages)
Collana	Energy Engineering Series
Altri autori (Persone)	RayPravat Kumar KhadkikarVinod
Disciplina	621.31
Soggetti	Smart power grids Microgrids (Smart power grids)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Contents -- Preface -- About the editors -- 1. Introduction to smart grids and microgrids Pravat Kumar Ray, Shobhit Nandkeolyar, Bidyadhar Subudhi and Chinmaya Jagdev Jena -- 2. Renewable energy system integration in smart grids Anindya Bharatee, Pragnyashree Ray, Pravat Kumar Ray and Bidyadhar Subudhi -- 3. Adaptive control schemes for AC microgrid Swagat Kumar Panda and Bidyadhar Subudhi -- 4. Reinforcement learning-based inter-area damping controller considering communication channel latency and actuator saturation Anirban Sengupta and Dushmanta Kumar Das -- 5. Application of advanced and robust control schemes with cyber resiliency in microgrid network Vivek Kumar, Pratyush Prateek, Soumya R. Mohanty and Nand Kishor -- 6. Bidirectional virtual inertia through decentralized virtual synchronous generator control in hybrid AC–DC microgrids Bandla Krishna Chaithanya and Prasad Padhy Narayana -- 7. Power quality issues in microgrids Azizulrahman Shafiqurrahman, Preetha Sreekumar and Vinod Khadkikar -- 8. Advanced fault direction identification strategy for AC microgrid protection Rudranarayan Pradhan and Premalata Jena -- 9. Communication and computations for smart grid protection Udit

Prasad and Soumya R. Mohanty -- 10. Holonic architecture for cyber-power distribution grid monitoring and operation | S. Basumallik, F. Rafy, S. Konar and A.K. Srivastava -- 11. Condition monitoring and health prognosis applications in smart grids | B. Sivaneasan, D.R. Thinesh, Z. Yunyi, K.T. Tan, A.K. Rathore and K.J. Tseng -- 12. Power electronics in a PV-integrated grid-connected electric vehicle charging system for V2G/G2V operation | Rajendra Prasad Upputuri and Bidyadhar Subudhi -- 13. Smart grid scenarios of different countries | Mousa Marzband, Shobhit Nandkeolyar, Bidyadhar Subudhi and Pravat Kumar Ray -- Index

Sommario/riassunto

This comprehensive work covers technologies enabling the smart grid: power electronics, simulation and control, protection, energy management, and use of AI. Also discussed are smart grid communication, technologies for fault detection and monitoring, PV integration and EV charging.
