

1. Record Nr.	UNINA9911006825203321
Autore	IAEA
Titolo	Format and Content of the Safety Analysis Report for Nuclear Power Plants : Specific Safety Guide
Pubbl/distr/stampa	Vienna : , : IAEA, , 2021 ©2021
ISBN	9781523149667 1523149663 9789201172204 9201172206
Edizione	[1st ed.]
Descrizione fisica	1 online resource (218 pages)
Collana	IAEA Safety Standards Series
Disciplina	363.17/996/0973
Soggetti	Nuclear power plants - United States - Safety measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"This Safety Guide provides recommendations on the structure and content of the safety analysis report to be submitted by the operating organization to the regulatory body for authorization of the siting, construction, commissioning, operation and decommissioning of a nuclear power plant. It is intended to facilitate both the development of the safety analysis report by the operating organization and the checking of its completeness and adequacy by the regulatory body. The publication is a revision of IAEA Safety Standards Series No. GS-G-4.1, Format and Content of the Safety Analysis Report for Nuclear Power Plants, which it supersedes. The revision reflects feedback experience from the Fukushima Daiichi accident and the subsequent stress tests performed. It also describes good practices and experience from the use of safety analysis reports for newly built nuclear power plants in different States and informs on recent progress made in approaches to safety assessment."
