

1. Record Nr.	UNINA9911006947603321
Autore	Purdy Robert (Lecturer in Physics)
Titolo	Particle physics : an introduction / / Robert Purdy
Pubbl/distr/stampa	Mercury Learning and Information
ISBN	1-5231-2026-6
Soggetti	Particles (Nuclear physics)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book is designed as a brief introduction to the fundamental particles that make up the matter in our universe. Numerous examples, figures, and simple explanations enable general readers and physics students to understand complex concepts related to the universe. Selected topics include atoms, quarks, accelerators, detectors, colliders, string theory, and more.
