

1. Record Nr.	UNINA9911007025003321
Autore	Looms J. S. T
Titolo	Insulators for high voltages / / J.S.T. Looms
Pubbl/distr/stampa	London : , : Peregrinus on behalf of the Institution of Electrical Engineers, , 1988
ISBN	1-62870-457-8 1-84919-425-4
Descrizione fisica	1 online resource (290 p.)
Collana	Power and Energy IEE power and energy series ; ; 7
Disciplina	621.319/37
Soggetti	Electric insulators and insulation High voltages
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	""Contents""; ""Foreword""; ""Acknowledgments""; ""1 Introduction""; ""1.1 Definitions""; ""1.1.2 Functions of insulators""; ""1.1.3 Classification of insulators""; ""1.2 History of insulators for transmission systems""; ""1.2.1 Transmission lines""; ""1.2.2 Insulator evolution: Materials and shapes""; ""1.3 Critical elements of an insulator""; ""1.3.1 Properties of materials for insulators""; ""1.3.2 Operation in adverse conditions""; ""1.3.3 Costs of insulators""; ""2 Insulating materials""; ""2.1 Basic nature of insulator dielectrics""; ""2.2 Properties of electrical porcelain""; ""2.2.1 The determinants""; ""2.2.2 Mechanical properties""; ""2.2.3 Electrical properties""; ""2.3 Properties of insulator glass""; ""2.3.1 The glassy state""; ""2.3.2 Mechanical properties of insulator glass""; ""2.3.3 Electrical properties of insulator glass""; ""2.4 Properties of resin-bonded glass fibre (RBGF)""

""; ""2.4.1 Fibrous composites: General ""
""2.4.2 Unidirectional fibre materials ""
""2.4.3 Mechanical properties of RBGF ""
""2.4.4 Electrical properties of RBGF ""
""2.5 Properties of polymers and polymer concretes ""
""2.5.1 Applications and functions ""
Polymers for housings ""
polymers as housing materials ""
""2.5.4 Polymer concretes ""
process porcelain ""
processes ""
""3.2 Blending the raw materials ""

""; ""2.5.2
""; ""2.5.3 Evaluation of
""
""; ""3 Manufacture of wet
""; ""3.1 Wet and other
""
