

1. Record Nr.	UNINA9911007248103321
Autore	Ayyub Bilal M
Titolo	Infrastructure System Resilience : An Engineering Framework for Assessment, Management and Governance
Pubbl/distr/stampa	Reston : , : American Society of Civil Engineers, , 2023 ©2023
ISBN	9781523161669 1523161663 9780784485088 0784485089
Edizione	[1st ed.]
Descrizione fisica	1 online resource (95 pages)
Collana	Infrastructure Resilience Publication ; ; v.8
Altri autori (Persone)	McNeilSue KobayashiKiyoshi TatanoHirokazu OnishiMasamitsu TakahashiYoshikazu HondaRiki van de LindtJohn KoikeToshio DavisCraig A
Soggetti	Civil engineering Sustainable engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cover -- Half Title -- Title Page -- Copyright Page -- Contents -- Foreword -- Acknowledgments -- Preface -- Acronyms -- Executive Summary -- Disclaimer -- Chapter 1 : Introduction -- References -- Chapter 2 : Infrastructure Resilience Framework -- Element 1: Infrastructure Resilience Domain -- System-Hazard Interaction -- System-Event Cycle Interaction -- Multidimensional -- Element 2: Building and Lifeline Infrastructure System Performance or Functionality -- Element 3: System Service Provision and Operability -- Element 4: Continuity of Services -- Element 5: Social and Economic Activity --

Element 6: Community -- Element 7: Establish Community Performance Targets -- Element 8: Define Infrastructure System Performance Targets -- Feedback -- References -- Chapter 3 : Outcomes of the Infrastructure Resilience Framework -- Policy -- Assessments of Social and Economic Losses -- The Economics of Resilience -- Tools -- References -- Chapter 4 : Assessment, Management, and Governance -- Assessment -- Management -- Governance -- Community Resilience -- References -- Chapter 5 : Applying the Framework -- Use the Framework In-Part or In-Whole -- Reordering the Framework -- Application to Design -- References -- Chapter 6 : Summary and Conclusion -- Appendix A : Review of Existing Resilience Frameworks -- References -- Appendix B : Complex Adaptive Systems -- References -- Appendix C : The Social, Built Infrastructure, and Natural Environment Systems Relationships -- Definitions -- Systems Relationships -- References -- Index.

Sommario/riassunto

IRP 8 describes a framework that demonstrates the interconnected relationships between the main elements that comprise infrastructure system resilience.
