

1. Record Nr.	UNINA9911007281703321
Autore	Campesato Oswald
Titolo	Working With Grep, Sed, and Awk Pocket Primer
Pubbl/distr/stampa	Mercury Learning and Information, 2023
ISBN	9781501518232 1501518232
Edizione	[1st ed.]
Descrizione fisica	1 online resource (265 p.)
Collana	Pocket Primer
Disciplina	5.5200000000
Soggetti	COMPUTERS / Programming Languages / Java COMPUTERS / Data Processing COMPUTERS / Databases / Data Mining
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The goal of this book is to introduce readers to three powerful command line utilities that can be combined to create simple yet powerful shell scripts for performing a multitude of tasks. The code samples and scripts use the bash shell, and typically involve very small text files so that you can focus on understanding the features of grep, sed, and awk. In the simplest terms, grep (global regular expression print) will search input files in data for certain words or word patterns and print the lines that match it. sed is useful for changing or modifying data. Awk is a programming language also used for searching a data file for certain patterns, but can also perform certain tasks on the pattern matches it finds. Aimed at a reader relatively new to working in a bash environment, the book is comprehensive enough to be a good reference and teach a few new tricks to those who already have some experience with these command line utilities.
