

1. Record Nr.	UNINA9911007475803321
Titolo	Cancer Metastasis, Management and Complications: An Interdisciplinary Approach // edited by Nima Rezaei
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-031-93546-2
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (XIII, 650 p. 55 illus., 49 illus. in color.)
Collana	Interdisciplinary Cancer Research, , 2731-457X ; ; 20
Disciplina	571.978 616.994
Soggetti	Cancer Cancer - Treatment Oncology Immunotherapy Tumors - Immunological aspects Nanomedicine Cancer Biology Cancer Therapy Tumour Immunology Cancer Nanotechnology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Musculoskeletal malignancies with unexpected presentations -- Mechanism of Tumor Growth and Metastasis -- Intricate Synergy of Mechanical and Biochemical Cues in the Transmigration of Cancer Cells Across the Endothelium -- Treatment of the Oligometastatic Patient -- Epidemiology, Diagnosis, Management, and Prognosis of Spinal Metastasis: The State of Art -- The Effects of Angiotensin-Converting Enzyme Inhibitors on Metastasis-associated Myeloid Cells -- Multidisciplinary Management of Colorectal Liver Metastases -- Oral Cavity as a Remote Destination of Cancer Metastasis -- Metastasis and the Endocrine-Disrupting Compound Bisphenol A -- Physical Activity in Cancer Patients -- Palliative Care in Childhood Cancers -- Occupational Therapy Approaches to Cancer Rehabilitaton from Childhood to

Adulthood: Aim, Scope and Innovations -- Cancer-Related Lymphedema and Physiotherapy -- Tools for The Assessment of Skeletal Muscle Mass and Its Clinical Application in Cancer -- Physiotherapy and Rehabilitation in Gynecologic Cancers -- Pelvic Floor Physiotherapy and Its Research Development in the Continuum of Gynecological, Prostate, and Colorectal Cancer Care -- Innovative Approaches for Psychological Distress among Cancer Survivors: An Inter/Transdisciplinary Perspective -- New Trends in Integrative Cancer Care: The Role of Exercise, Music, and Education -- Cognitive Impairment in CNS Related Cancer Therapy: Focus on Immunotherapy -- Prevention of Breast Cancer-related Lymphedema -- Hepatotoxicity of Anti-Cancer Drugs -- Cardiovascular Toxicities of Cancer Treatment -- Management Update in Immunotherapy and Kidney Injury -- Use of Photobiomodulation for Prevention and Treatment of Oral Mucositis Secondary to Cancer Therapies -- Patient Insurance Status, The Affordable Care Act, and Cancer Care Outcomes in the United States.

Sommario/riassunto

The “Cancer Metastasis, Management and Complications: An Interdisciplinary Approach” is the twentieth volume of the “Interdisciplinary Cancer Research” series, publishes an overview of cancer metastasis, management and complications. The volume starts with a chapter on musculoskeletal malignancies, followed by chapters on mechanisms of tumor growth and metastasis and transmigration of cancer Cells across the endothelium. After discussion on treatment of the oligometastatic patient, epidemiology, diagnosis, management, and prognosis of spinal metastasis are discussed. The effects of angiotensin-converting enzyme inhibitors on metastasis-associated myeloid cells, as well as multidisciplinary management of colorectal liver metastases are oral cavity are explained in subsequent chapters. Physical activity, physiotherapy, rehabilitation, and palliative care in cancer patients are fully discussed in other chapters. The other chapters focus on cancer complications. This is the main concept of Cancer Immunology Project (CIP), which is a part of Universal Scientific Education and Research Network (USERN). This interdisciplinary book will be of special value for those who wish to have an update on cancer metastasis, management, and complications.
