Sommario/riassunto

In Memory of Ethics: A Dissection of Ethical and Social Issues in Pakistani Professional Healthcare Practice explores the ethical challenges faced within the healthcare sector with a focus on Pakistan. From workplace behaviors to medical procedures, COVID-19 era dilemmas, and broader social health concerns, the book explores the intricate intersection of ethics and healthcare in the region. The book is divided into five sections. Section I covers topics such as workplace behaviors and ethical conducts while section II covers medical procedures, and patient-doctor relationships. Section III addresses the unique ethical challenges brought forth by the COVID-19 pandemic, including guidelines for therapists and the ethics of mandatory vaccinations. Section IV examines the impact of social media on healthcare, gender discrimination, and the ethical considerations surrounding prisoner rehabilitation. The final section offers insightful essays on ethical and social Issues, covering topics like body shaming, free healthcare, and patient privacy. The editors also explore controversial topics, including euthanasia, abortion, and assisted reproductive technology. The key feature of this book is that it provides a comprehensive coverage of diverse ethical dilemmas in healthcare. Furthermore, it is an attempt to give a subjective understanding of healthcare ethics through thought-provoking essays shedding light on contemporary ethical issues in a Pakistani context. The contributors have incorporated real-world examples and case studies to illustrate ethical principles in action. In Memory of Ethics: A Dissection of Ethical and Social Issues in Pakistani Professional Healthcare Practice book is essential reading for anyone interested in understanding complex ethical and social issues and promoting integrity in healthcare practices.
